The Perfect Skin for your Pool

*Rely on it.*

# Enjoy that new pool look

**RENOLIT ALKORPLAN** offers you the best solution for the renovation of your swimming pool.

The exclusive properties of **RENOLIT ALKORPLAN** provide the very highest level of security and protection for swimming pools.

It's quick and easy installation method on any type of surface, and its ability to adapt to all shapes, make it the best system for renovating old or damaged pools.

## Dress-up your pool

**RENOLIT ALKORPLAN** has the widest range on the market, offering a diverse array of eye pleasing, trend-setting solutions for waterproofing your pool. Colours, textures and innovative designs have been created to give your pool a highly contemporary look.

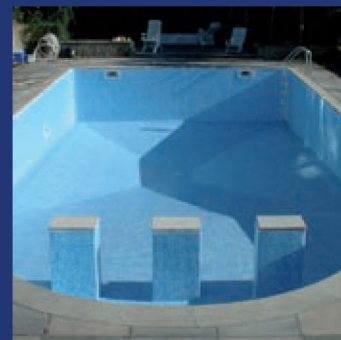

# The sensible choice for lining your pool

**RENOLIT ALKORPLAN** is a membrane consisting of two flexible layers of polyvinyl chloride interleaved with a reinforcing polyester mesh.

The reinforced membrane **RENOLIT ALKORPLAN** is the best solution to leakage problems in your pool. It offers resistance, flexibility, strength and longevity.

**RENOLIT ALKORPLAN** can reduce the construction costs of the shell of your pool thanks to its waterproofing and decorative properties which can be applied to even the most basic structures.

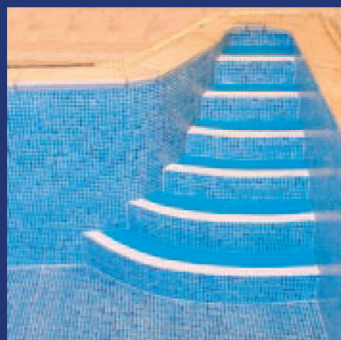

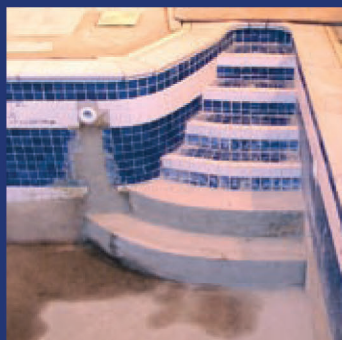

The reinforced membrane **RENOLIT ALKORPLAN** avoids the common problems and costly maintenance caused by other systems such as renewing the grouting or repainting. With **RENOLIT ALKORPLAN** the only maintenance necessary is basic cleaning.

## Where to use **RENOLIT ALKORPLAN**

The use of **RENOLIT ALKORPLAN** guarantees that your pool is waterproof, whatever its shape, size or structure. **RENOLIT ALKORPLAN** can be used over any type of support, from steel sheeting and steel decking to wood, tile or mosaic, polyethylene etc.

**RENOLIT ALKORPLAN** is recommended for the construction and renovation of all types of pool, whether private or public.

## Advantages of the reinforced membrane **RENOLIT ALKORPLAN**

- Highly resistant to ageing.
- Highly resistant to atmospheric pollution.
- Protected against UV degradation.
- Excellent resistance against water treatments, fungal and bacterial action.
- Heat weldable.
- Anti-rot.

In addition, the **RENOLIT ALKORPLAN 2000** and **RENOLIT ALKORPLAN 3000** lines show optimum protection against stains, abrasion and scratches.

## Total waterproofing

**RENOLIT ALKORPLAN** is the only system that guarantees a waterproof seal, provided that it has been correctly installed by a **RENOLIT** trained professional.

With the reinforced membrane **RENOLIT ALKORPLAN** you will have a completely waterproofed shell, combined with a high quality decorative finish chosen from a complete range of colours and prints allowing you the freedom to choose your own pool design.

There is a 10-year guarantee on the waterproofing properties of **RENOLIT ALKORPLAN** reinforced membrane.
